

**ALUMINIUM
CORE DOORS**
RESIDENTIAL | COMMERCIAL

CR  **FT**
D O O R S
by DS2

a new **paradigm** in door construction

why aluminium core ?

- minimal bending
- no rusting
- helps achieve greater thickness
- less carbon footprint
- sturdier & lighter

Crafted for Performance

Door frames that hug the wall

Increases clearance & protects wall edge from chipping

Clean and simple installation

we don't use Z clamps or door horns

Dampens noise & reduces air leakage

nylon strips help reduce shutter banging sound

No cracks on the wall

we don't use Z clamps or door horns

Premium finish

bevelled, light & thick. Just perfect.
